

GENERAL INFORMATION

State Automation Anti-flickering LEDplug is an innovative device for stopping LED lights flickering when they are dimmed with Phase Control dimmers. Once the LEDplug is installed into the LEDs circuit, the flickering is significantly reduced or stopped.

APPLICATIONS

- LED fixtures connected to phase controlled dimmer circuits

FEATURES

- LEDplug stops LED's flickering
- Small, light weight package
- Low power loss

BENEFITS

- Stops LED fixtures from flickering
- Saves cost by using existing phase controlled dimmers
- Inexpensive solution

ORDERING INFORMATION

AirLED Drivers	
801-316-00	Anti-flickering LEDplug

Regulatory Compliance

Compliance	CE, C-tick
------------	------------

General Specifications

Operating Ambient Temperature	-10 to +40 Deg C
IP Rating	IP 20
Dimensions H x W x D	Driver: 85mm x 47mm x 36mm
Weight	136 g
Cooling	Convection

Electrical Specifications

AC Supply	0-275 V
Power consumption	<1 W
Connection	AuGPO
